INSTRUCTIONS TO AUTHORS

SUBMISSION POLICY:

Abstracts submitted to the Southern Association for Vascular Surgery for consideration for the Annual Meeting program must be original work. Work that has been presented orally at national or regional meetings or has been previously published cannot be submitted. It is acceptable to submit work that has been presented at local meetings or as a poster, provided it has not been published.

It is permissible to simultaneously submit abstracts to more than one society. However, if accepted for plenary presentation, the Southern Association for Vascular Surgery expects that it will be presented at the SAVS Annual Meeting. Authors whose work is accepted for plenary presentations must submit a manuscript to the *Journal of Vascular Surgery*.

Failure to comply with the above policies may result in all authors listed on the abstract/manuscript being ineligible to submit work to the Southern Association for Vascular Surgery for up to one year.

Should authors have questions or concerns regarding these policies or whether their work is appropriate for submission, they should contact the Chair of the Program Committee or the Secretary-Treasurer for clarification prior to submitting their abstract.

ACCME

Submitting authors will also be prompted to answer the following questions during the submission process:

- What quality gap (limitation or problem) with the practice of vascular surgery does this research address?
- In what way might the results of this project supplement or inform, our clinical or research knowledge or strategies?

Self-Assessment Questions

Because the ABS requires self-assessment to maintain your Board Certification and Maintenance of Certification (MOC), the SAVS is developing a self-assessment exam for SAVS attendees at the January Annual Meeting. To meet this need you will need to create **two (2)** pertinent questions to test the attendee's understanding of the main points of your presentation. **One question needs to be CASE BASED.** For each question please provide one (1) correct answer (which will be supported by your data and presentation) and three (3) incorrect answers. **PLEASE NOTE: "All of the Above" responses are not permitted.**

Resident Poster Competition

For abstracts to be considered as a part of the Resident Poster Competition, the author must meet all of the following criteria:

1. The author is a Resident, Fellow or Student at the time of submission
2. The Resident/Fellow/Student is the first author on the paper
3. The author will be present at the 38th Annual Meeting should the paper be accepted.

Abstracts not selected for the Resident Poster Competition Presentation are still eligible for inclusion within the general scientific program. Only one abstract submission is necessary.
